PROFESSIONAL EXPERIENCES

Senior product designer | Freelance | Jan'23 - Present

Creating great experiences doing: user research, ux reviews, customer journey & user personas design, design thinking workshops, prototyping and wireframing, UI design for clients in complex industries.

Product designer | Capgemini Design Studio | Jun'21 - Jan'23

Creating engaging and beautiful user experiences on several projects, touching all aspects of the product design job. My main responsibilities were: understanding the client's requirements - being the voice of the user - designing functionalities - aligning with technical and business teams - expanding the customer's existing design system.

Ecommerce consultant | Deloitte Digital | Sep'19 - Jun'21

Design & implementation of B2B & B2C Ecommerce websites for clients in various industries. My main responsibilities were: understanding the customer's requirements and translating them into functional requirements - defining the customer journey - designing the functionalities, the information architecture - managing the successful implementation - communicating findings and ideas to the client.

Business analyst | Deloitte | Sep'18 - Sep'19
